

CASE STUDY

The Kilpatrick Group x Madison Ave Consulting Campaign management, digitally transformed.

The Kilpatrick Group operates at the intersection of media, marketing, and adult care. Their campaign management process touched every regional sales manager and every marketing decision.

THE CHALLENGE

Campaign management by spreadsheet

Budgeting, planning, and execution lived across disconnected tools. Every step created friction. Every approval created delay.

Disconnected Tools

Budgeting, planning, and execution lived in silos with no single source of truth.

Manual Shepherdding

Regional sales managers manually managed every campaign from start to finish.

Slow Approvals

Internal and external approval cycles dragged on for months, stalling execution.

No ROI Visibility

Visibility into campaign performance and return on investment was inconsistent at best.

THE SOLUTION

End-to-end campaign management on Salesforce

Madison Ave Consulting rebuilt the entire campaign workflow inside Salesforce, from intake to final execution.

Unified Planning

Campaign planning and budgeting consolidated into one platform.

Structured Approvals

Formal approval flow for both internal and external reviewers.

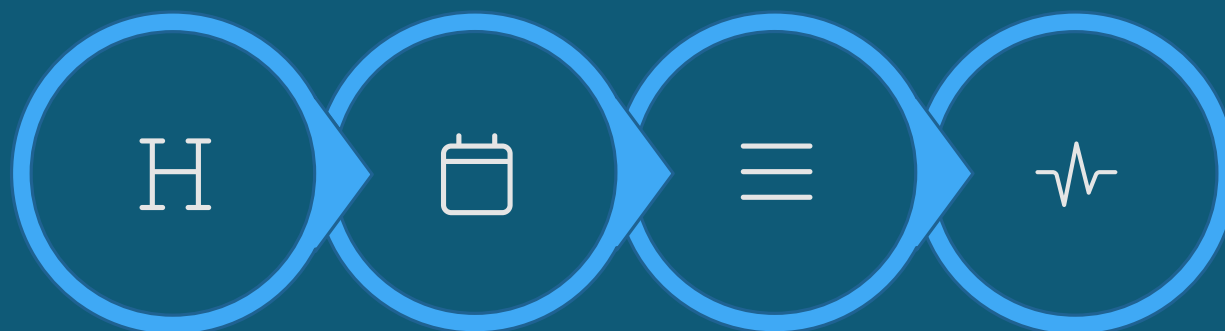

Real-Time Visibility

Live campaign status across all regions, always current.
