

CASE STUDY

Anchor Health x Madison Ave Consulting Healthcare operations built for the pace of care

A six-month transformation that turned a patchwork of legacy systems into a single source of truth for intake, recruiting, onboarding, and case management.

Anchor Health is a rapidly expanding in-home healthcare provider across multiple states.

THE CHALLENGE

Outgrowing the tools that built them

Anchor Health was scaling fast. Their legacy systems could not keep up.

Slow Onboarding

Onboarding new caregivers took weeks. Every delay meant patients waiting longer for care.

Spreadsheet Chaos

Critical workflows lived in spreadsheets. Version control was a daily battle.

Fragmented Data

Data scattered across disconnected platforms. No single source of truth existed.

Care Quality at Risk

Patient care quality was directly threatened by operational blind spots.

THE SOLUTION

Pulse on Salesforce, end to end

Madison Ave Consulting deployed Pulse for intake, recruiting, onboarding, and case management across multiple states in six months.

White-Glove Implementation

A dedicated team embedded with Anchor Health from day one through go-live.

Zero-Loss Data Migration

Sophisticated migration protocols. Every record transferred. Nothing left behind.

Direct EMR Integration

Live, bidirectional connection with their existing electronic medical records system.

Salesforce Lightning + AI

Built on the world's leading CRM platform with AI capabilities baked in.

THE RESULTS

Outcomes that move the business

\$50K+

Annual Savings

Saved every year by eliminating legacy licensing costs.

2x

Team Productivity

Intake team productivity doubled across the board.

2x

Caseload Capacity

Each intake rep now processes twice the caseload.

360 Patient View

True visibility into every patient and caregiver relationship in one place.

Live EMR Data Flow

Real-time data sync with their EMR system. No manual reconciliation required.

CLIENT TESTIMONIAL

What the client said

"This is the most advanced system we have encountered. The Pulse team showcased capabilities that simply do not exist in other solutions."

Nochum Paltiel, Director of IT, Anchor Health
