

CASE STUDY

GlobalGiving x Madison Ave Consulting

Nonprofit Cloud + Agentforce

GlobalGiving is transforming aid and philanthropy to accelerate community-led change. Thousands of vetted nonprofit partners. Donors in every country. A platform built to perform when it matters most — especially in the first 72 hours of a disaster.

Nonprofit Cloud

Enterprise-scale donor management

Agentforce

AI-powered donor matching

Global Reach

Donors in every country

Nonprofit Cloud Build, Delivered

We completed a Nonprofit Cloud implementation for GlobalGiving's core donor engagement systems. Unified data model. Scalable architecture. Built for the largest nonprofit network of its kind.

Donor Management

Gift Commitments for recurring donations. Automation without code. A unified data model that scales.

Integration Planning

Connected across Slack Business+, Google Workspace, and internal databases for seamless operations.

Scalable Reporting

Reporting infrastructure designed to support thousands of active projects across the global network.

MatchForce: An Agentforce Donor Matching Solution

GlobalGiving issued an RFP in March 2026 for an AI-powered donor-nonprofit matching solution. The goal: reduce donor response time from multiple days to under 60 seconds for curated recommendations.

Interpret Donor Intent

Reads signals from email, forms, and messaging tools to understand what donors actually want.

Retrieve Nonprofit Data

Analyzes vetted nonprofit data in real time across GlobalGiving's full partner network.

Generate Recommendations

Delivers tailored, compliant matches with explainable outputs and responsible AI guardrails.

Built on Agentforce

Powered by Salesforce Agentforce with enterprise-grade security and responsible AI at its core.

Target: Donor response time from days to **under 60 seconds**.

WHY IT MATTERS

Speed Equals Impact

During disasters, the majority of donations happen in the first 72 hours. Every hour of delay is a dollar that does not reach community-led responders. MatchForce is designed to cut that delay from days to seconds.

Fund Flow

Increase funding to community-led organizations at the moment it matters most.

Local Visibility

Improve discovery for smaller, locally led nonprofits that are first on the ground.

Trust-Based Giving

Support trust-based philanthropy principles with transparent, explainable AI outputs.

 DREAMFORCE 2026 PROTOTYPE TARGET

Why GlobalGiving Chose Madison Ave

→ **Proven Nonprofit Cloud Expertise**

Enterprise-scale builds with deep knowledge of the Salesforce nonprofit ecosystem.

→ **Agentforce Readiness**

A responsible AI practice built for the complexity and stakes of mission-driven work.

→ **Direct Integration Experience**

We work with the tools they already use. No rip and replace. No disruption.

→ **We Get Philanthropy**

We understand the stakes of delay. We build with urgency, precision, and purpose.

Madison Ave Consulting | Salesforce excellence for mission-driven organizations
