

PARTNERSHIP

GlobalGiving x Madison Ave Consulting Nonprofit Cloud + Agentforce

GlobalGiving is transforming aid and philanthropy to accelerate community-led change. Thousands of vetted nonprofit partners. Donors in every country. A platform that has to support all of it, especially during disasters when the first 72 hours decide everything.

CHAPTER ONE

Nonprofit Cloud Build, Delivered

We completed a Nonprofit Cloud implementation for GlobalGiving's core donor engagement systems. Unified data model, Gift Commitments for recurring donations, automation without code, and scalable reporting for the largest nonprofit network of its kind.

Donor Management

Nonprofit Cloud end-to-end donor engagement and unified data model

Integration Planning

Slack Business+, Google Workspace, and internal database connectivity

Scalable Architecture

Built to support thousands of active projects across the global network

MatchForce: AI-Powered Donor Matching

The Challenge

GlobalGiving issued an RFP in March 2026 for an AI-powered donor-nonprofit matching solution. The goal: reduce donor response time from multiple days to under 60 seconds for curated recommendations.

Built on Agentforce

Responsible AI guardrails. Explainable outputs. Real-time nonprofit data retrieval. Designed for trust-based philanthropy at scale.

01

Interpret Intent

Reads donor signals from email, forms, and messaging tools

02

Retrieve Data

Analyzes vetted nonprofit data in real time

03

Generate Matches

Tailored, compliant recommendations with explainable outputs

04

Deliver Results

Curated recommendations in under 60 seconds

WHY IT MATTERS

Speed Equals Impact

During disasters, the majority of donations happen in the first 72 hours. Every hour of delay is a dollar that does not reach community-led responders. MatchForce is designed to cut that delay from days to seconds.

Funding Flow

Increase capital reaching community-led organizations at the moment it matters most

Local Visibility

Improve discovery for smaller, locally led nonprofits often overlooked by traditional channels

Trust-Based Giving

Support the principles of trust-based philanthropy with transparent, explainable AI

Dreamforce 2026

Prototype target set for the world's largest Salesforce conference

Why GlobalGiving Chose Madison Ave

→ **Nonprofit Cloud Expertise**

Proven enterprise-scale builds
for mission-driven
organizations

→ **Agentforce Readiness**

Responsible AI practice built
for real-world deployment

→ **Deep Integration Experience**

Direct connectivity with the
tools GlobalGiving already
uses

→ **Mission Alignment**

A team that understands
philanthropy and the stakes of
delay

Madison Ave Consulting
Salesforce excellence for
mission-driven organizations
