

CASE STUDY

Edison Home Health Care Intake that moves at the speed of need

Edison is a national home health provider. Their patient intake team was drowning in paperwork and manual processes. Every delayed intake was a patient waiting for care.

THE CHALLENGE

Intake bottlenecks cost care hours

Manual processes created friction at every step. Case managers were stretched thin. Growth was impossible.

Form Generation

Manual generation of doctor, insurance, and state-required forms consumed hours every day.

Zero Visibility

No real-time visibility for management. Leaders were flying blind on intake performance.

Capped Capacity

Case managers limited to roughly 25 cases each. A hard ceiling on the care they could deliver.

Stalled Admissions

Admissions stuck around 150 per month. The business could not scale under these conditions.

THE SOLUTION

Salesforce Service Cloud + Tableau CRM

Madison Ave Consulting automated the manual work and gave management live dashboards. The intake team could finally focus on patients, not paperwork.

Automated Forms

Doctor, insurance, and state-required forms generated automatically. No manual effort required.

Real-Time Analytics

Live dashboards on intake velocity. Management finally had the data to lead with confidence.

Reports and Dashboards

Out-of-the-box Reports paired with Tableau CRM for deep operational insight.

Streamlined Workflow

Case managers freed from administrative burden. More time for patients, more cases handled.

THE RESULTS

Numbers that changed the business

In 12 months, Edison transformed from a bottlenecked operation into a scalable care delivery engine.

3.7x

Patient Intake Growth

Increase in new patients entering the intake process in just 12 months.

80

Cases Per Manager

Triple what each case manager handled before. The same team, dramatically more capacity.

2x

Monthly Admissions

From 150 to 300 monthly patient admissions. Doubled without adding headcount.

Intake Directors finally had the data they needed to lead. Real visibility. Real decisions. Real growth.

CLIENT TESTIMONIAL

What the client said

“

"I cannot imagine running my Intake team without Salesforce. The tools, automation, reports, and dashboards are amazing. There is no better tool."

Intake Director, Edison Home Health Care
