

CASE STUDY

MadHive x Madison Ave Consulting

Salesforce for the programmatic CTV leader

MadHive is the leading programmatic CTV advertising platform built for local markets. Based in NYC, they power advertising for broadcasters and advertisers across the country.

The Partnership

Since July 2020, multiple initiatives

Madison Ave Consulting has been MadHive's Salesforce consulting partner since the very first implementation. Our work has touched every layer of their Salesforce environment.

1

Sales Cloud

Full Sales Cloud implementation from the ground up

2

Slack + DocuSign

Real-time team visibility and contract workflow automation

3

Products Catalog

Programmatic ad product catalog built inside Salesforce

4

Conga + Migration

Legal operations via Conga Contracts and full data migration from legacy systems

WHY IT WORKS

A partner that understands media velocity

Speed matters in programmatic. We built a model that keeps pace without sacrificing quality or continuity.

AOD Engagement Model

Admin on Demand provides consistent capacity without the overhead of a full-time hire.

Senior Talent, Embedded

Senior Salesforce professionals work directly alongside the MadHive team.

Industry Fluency

Deep understanding of programmatic ad workflows and media industry cadence.

Continuous Evolution

We grow alongside MadHive. No handoff. No walking away.

The Bigger Picture

Media moves fast. Programmatic moves faster. MadHive needed a Salesforce partner who could keep pace with both and evolve the platform continuously instead of delivering and walking away.

Built for Media

We speak the language of broadcasters, advertisers, and ad tech.

Always On

Continuous partnership. Not a project. Not a handoff.

Proven at Scale

Every layer of MadHive's Salesforce environment. Since day one.

Madison Ave Consulting | Salesforce
excellence for media and ad tech
