

CASE STUDY

Sprinklr x Madison Ave Consulting

**Streamlining legal
operations and
customer success
reporting**

Sprinklr is the Unified-CXM platform. Their legal and customer success teams needed Salesforce tooling that could match their global scale.

IMPLEMENTATION

Conga CLM Implementation

Legal operations at enterprise speed

Madison Ave Consulting deployed Conga CLM for Sprinklr's legal team with deep Salesforce customization.

Rich Document Tooling

Color formatting, imaging, and email relay baked in for polished, on-brand output.

Live Data Connections

Linked to external data sources for real-time accuracy across every agreement.

Role-Based Permissions

Custom permissions aligned to role-based access across the organization.

500+ Users Onboarded

Sales, Legal, Sales Ops, Services, and Customer Success all live on one platform.

AUTOMATION

CDAP Deck Automation

Customer success decks, built in minutes

We partnered with Sprinklr to create one Salesforce report with customizable filters specific to their eight global regions to populate decks automatically.

Unified Data Source

Output pulled from Salesforce and FinancialForce for a single source of truth.

Customizable Fields

Standardized formats with flexible filters for each of eight global regions.

Consistent Data

Every regional deck draws from the same verified, up-to-date information.

CSMs Freed Up

Customer success managers focused on relationships, not slide building.

WHY IT MATTERS

Customer experience is Sprinklr's core business.

When their internal CX tools move at the same speed as their customer-facing work, everyone wins.

Madison Ave Consulting |
Salesforce excellence for enterprise tech

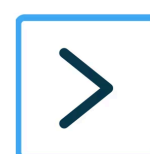

Speed at Scale

Enterprise tooling that keeps pace with global operations.

Built Together

Deep collaboration between Sprinklr teams and Madison Ave Consulting.
