

CASE STUDY

Edison Home Health Care Intake that moves at the speed of need

Edison is a national home health provider. Their patient intake team was drowning in paperwork and manual processes. Every delayed intake was a patient waiting for care.

MADISON AVE CONSULTING

THE CHALLENGE

Intake bottlenecks cost care hours

Manual Form Generation

Doctor, insurance, and state-required forms all created by hand. Every form was a delay.

Zero Visibility

Management had no real-time view into intake velocity or team performance.

Capped Capacity

Case managers limited to roughly 25 cases each. Growth was impossible.

Stalled Admissions

Only 150 patient admissions per month. The ceiling was hard and the team felt it.

THE SOLUTION

Salesforce Service Cloud + Tableau CRM

Madison Ave Consulting automated the manual work and gave management live dashboards.

Automated Forms

Doctor, insurance, and state-required forms generated automatically. No manual effort.

Real-Time Analytics

Live dashboards tracking intake velocity across every case and every manager.

Reports and Dashboards

Out-of-the-box reporting paired with Tableau CRM for deep operational insight.

Streamlined Workflow

Case managers freed from admin work. More time for patients. More capacity for growth.

THE RESULTS

Numbers that changed the business

3.7x

Patient Intake Growth

New patients entering the intake process in just 12 months.

80

Cases Per Manager

Triple the previous capacity. The same team. Far greater impact.

2x

Monthly Admissions

From 150 to 300 patient admissions per month. Doubled.

Leadership Finally Had Answers

Intake Directors gained the real-time data they needed to lead with confidence. Decisions backed by facts, not guesswork.

CLIENT VOICE

What the client said

"I cannot imagine running my Intake team without Salesforce. The tools, automation, reports, and dashboards are amazing. There is no better tool."

Intake Director, Edison Home Health Care

Madison Ave Consulting
