

CASE STUDY

Ascension × Madison Ave Consulting

Deal flow visibility for financial sponsors

Ascension was formed to accelerate the pace of progress and achieve a higher standard of real estate advisory. Their purpose: elevate corporate real estate efficiency, strategy, access, and insight for financial sponsors and business owners, globally.

Global CRE Advisory

Salesforce

Transformation

THE CHALLENGE

Advisory velocity needs advisory-grade tooling

Ascension's team advises sophisticated financial sponsors across a global deal pipeline. Their existing Salesforce environment needed to match that velocity.

Deal Flow Blind Spots

Opportunity deal flow was hard to see end to end across active engagements.

Fragmented Documents

Document management across client engagements was scattered and unstructured.

Spreadsheet KPIs

Leadership KPIs were built in spreadsheets, not live data. No single source of truth.

Access Friction

Single sign-on was needed for secure, frictionless team access across the platform.

Four targeted Salesforce initiatives

Madison Ave Consulting delivered a phased Salesforce build focused on the highest-impact levers for an advisory firm.

Deal Flow Visibility

End-to-end visibility across every active engagement in the pipeline.

Document Management

Structured storage tied directly to each deal and client engagement.

Tableau KPI Dashboards

Live leadership dashboards built on real pipeline data. No more spreadsheets.

SSO Implementation

Secure, friction-free single sign-on access for the entire team.

THE APPROACH

Agile delivery. Six-week MVP.

We structured the engagement around an agile, two-week sprint cadence with a six-week MVP target.

2wk

Sprint Cadence

Consistent delivery rhythm from kickoff to MVP.

6wk

MVP Target

Fast enough to matter for the next deal on the pipeline.

50hrs

Dev Per Week

30 to 50 development hours per week through MVP.

Lead Solution Architect

Senior architecture oversight on every sprint.

Technical Architect

Deep technical execution alongside functional delivery.

KISS Design Principle

The simplest solution that delivers the outcome. Every time.

THE TEAM

Salesforce certifications that back the work

WHY IT WORKED

Speed of visibility. Speed of deals.

Advisory firms live or die on the speed of deal flow visibility. Ascension needed a partner that understood the specialized workflows of CRE advisory and could ship an MVP fast enough to matter for the next deal on the pipeline.

That is exactly what we built.

Madison Ave Consulting

Salesforce excellence for commercial real estate advisory.
