

CASE STUDY

The Kilpatrick Group x Madison Ave Consulting Campaign management, digitally transformed

The Kilpatrick Group operates at the intersection of media, marketing, and adult care. Their campaign management process touched every regional sales manager and every marketing decision.

THE CHALLENGE

Campaign management by spreadsheet

Budgeting, planning, and execution lived across disconnected tools. Every step of the process created friction.

Disconnected Tools

Budgeting, planning, and execution lived in silos with no single source of truth.

Manual Overhead

Regional sales managers manually shepherded every campaign from start to finish.

Slow Approvals

Internal and external approval cycles dragged on for months, stalling execution.

Blind Spots

Visibility into campaign ROI was inconsistent at best across regions.

THE SOLUTION

End-to-end campaign management on Salesforce

Madison Ave Consulting rebuilt the entire campaign workflow inside Salesforce, from intake to final execution.

Unified Planning

Campaign planning and budgeting consolidated into one platform.

Structured Approvals

Defined approval flow for both internal and external reviewers.

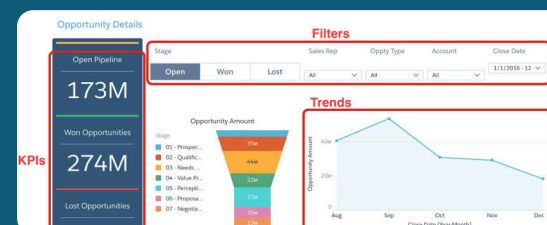

Real-Time Visibility

Live campaign status across all regions, always current.

Tool Integration

Connected with Tableau and custom portals already in use.

THE RESULTS

THE BIGGER PICTURE

Marketing ops that makes the revenue engine work

Good marketing operations is invisible when it works. The Kilpatrick Group engagement included additional Salesforce projects across Tableau, VPA Portal, and Lobster Rollout, continuing the broader digital transformation of their adult care marketing organization.
