

CASE STUDY

Bluecrest Recovery x Madison Ave Consulting Health Cloud + ZenChart EMR

Bluecrest Recovery Center, part of Keystone Recovery, is a behavioral health provider focused on long-term recovery outcomes. Their clinical operations run on ZenChart. Their growth and coordination run on Salesforce. Both had to talk to each other.

ZenChart

Clinical EMR

Salesforce

THE CHALLENGE

Clinical Data Trapped Outside the CRM

Two critical systems. Zero connection. Coordinators were flying blind.

Siloed Clinical Records

ZenChart held the clinical source of truth. Salesforce had no visibility into it.

Disconnected Operations

Salesforce managed intake, care coordination, and alumni engagement in isolation.

No Real-Time Context

Coordinators needed clinical context to make real-time decisions. They did not have it.

Wrong Tool for the Job

Generic Salesforce did not capture the nuance of behavioral health workflows.

THE SOLUTION

Health Cloud Implementation + ZenChart Integration

Madison Ave Consulting delivered a full Salesforce Health Cloud implementation tied directly to ZenChart.

Health Cloud Patient Records

Unified patient records with full care team coordination built in.

Custom Behavioral Health Workflows

Intake and engagement workflows designed specifically for behavioral health operations.

Bi-Directional ZenChart Integration

Real-time clinical data flows between ZenChart and Salesforce. No manual entry. No lag.

Reports and Dashboards

Leadership visibility into clinical and operational performance at a glance.

WHY IT MATTERS

Clinical Context Enables Clinical Decisions

When care coordinators have real-time clinical data at their fingertips, they make faster, better decisions.

For patients in active recovery, that is the difference between staying on track and falling through the cracks.

Faster Decisions

Real-time data. No waiting.

Better Outcomes

Context drives care quality.

Madison Ave Consulting

Salesforce excellence for behavioral health.

We build the integrations that connect clinical reality to operational action.
