

CASE STUDY

Sprinklr x Madison Ave Consulting

Streamlining legal operations and customer success reporting

Sprinklr is the Unified-CXM platform. Their legal and customer success teams needed Salesforce tooling that could match their global scale.

Madison Ave
Consulting
delivered.

IMPLEMENTATION

Conga CLM Implementation

Legal operations at enterprise speed

Madison Ave Consulting deployed Conga CLM for Sprinklr's legal team with deep Salesforce customization.

Rich Formatting

Color formatting, imaging, and email relay baked in from day one.

Live Data

Linked to external data sources for real-time accuracy.

Custom Permissions

Role-based access aligned to every team's needs.

500+ Users

Sales, Legal, Sales Ops, Services, and Customer Success all onboarded.

RESULTS

The Results Adoption that tells the story

500+

Active Users

Across five business functions.

84%

CLM Adoption

Of Conga CLM across the organization.

173+

Hours Saved

Annually generating customer success decks.

10%

Online Terms

Utilization across agreements.

AUTOMATION

CDAP Deck Automation

Customer success decks, built in minutes

The Challenge

Eight global regions. Inconsistent data. CSMs spending hours building slides instead of serving customers.

The Solution

One Salesforce report with customizable filters. Decks populate automatically across every region.

- **Output pulled from Salesforce and FinancialForce**
Single source of truth for every data point.
- **Customizable fields and standardized formats**
Regional flexibility without sacrificing consistency.
- **CSMs focused on relationships, not slide building**
Time reclaimed. Value delivered where it matters most.

MADISON AVE CONSULTING

Why It Matters

Customer experience is Sprinklr's core business. When their internal CX tools move at the same speed as their customer-facing work, everyone wins.

Legal Operations

Conga CLM at enterprise scale.

Deck Automation

173+ hours saved every year.

Global Reach

500+ users. Eight regions. One platform.
